

Growing Digital Confidence & Capabilities through Digital Champion Networks

Thursday 23rd November 12:30-13:30

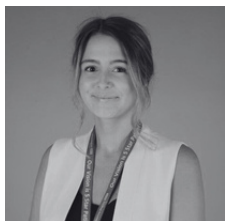

Please book your place using the QR code or this [link](#)

Digital Champion Networks can be extremely effective in growing digital confidence and capabilities across your organisation. Discover more about the role of a digital champion and how a network can collaborate to reduce exclusion, increase participation and embed a digital culture.

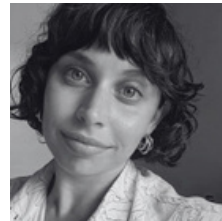

You will also have an exclusive first-look at the national toolkit in development to support organisations build and grow digital champion networks. Also hear from Shannon McNee about the positive impact of Digital Ambassadors and how they have helped to enhance services across a range of support settings.

Our Speakers :

Hilary Lowe
Digital Workforce Specialist
Lead, Digitally Enabled
Workforce Team, NHS
Education for Scotland

With a background in digital transformation within the health and care sector Hilary has seen first-hand how digital can empower staff and enhance services. Hilary is currently leading 2 national programmes of work focussed on developing digital skills across the health and care workforce in Scotland.

Shannon McNee
Digital Inclusion Development
Manager, Carr Gomm - a social
care and community
development charity

Since 2021, Shannon has been leading on the Digital Inclusion Research Project which aims to learn more about the digital needs of people supported by Carr Gomm - and Carr Gomm staff - to ensure everyone has the choice and opportunity to get online in a safe and meaningful way.
